Samvardhana Motherson Group welcomes Reydel Automotive Group on board.

Dear Valued Supplier,

We are proud to inform you that after a successful closing, Reydel Automotive Group is now an integral part of the Samvardhana Motherson Group and will be renamed:

Samvardhana Motherson Reydel Companies (SMRC)

The renaming is symbolic of the integration of all Reydel Automotive entities in Europe, Asia, and South America into the Samvardhana Motherson Group which is well known as innovative, quality focused and a reliable partner to numerous industries.

The name Samvardhana stands for ever-growing value while the name Motherson reflects the founding of the Group in 1975 through a mother and son, and the strong family ties that binds us all together. We decided to keep Reydel as part of the new name to honour the history and growth of the company with its origins in France and to honour the knowledge and work of all employees in the different Reydel companies.

As part of the Polymers & Modules Division, Reydel will become sister company to SMP and MATE. SMP is a leading expert in high quality interior and exterior modules mainly for upper car segments with locations worldwide and headquarters in Germany. SMP, previously known as Peguform was acquired by SMG in 2011. The company today is fully integrated with the Group and continues to grow stronger, testament to our commitment to every member of the Motherson family, old and new.

MATE is one of the largest suppliers of moulded parts, fully assembled modules mainly to the Indian automotive industry with headquarters and operations in India.

Both companies operate fully equipped modern facilities across the globe to support customers close to their vehicle assembly plants.

With this integration, we continue to be your partner for innovative and high-quality automotive interior solutions.

We confirm as well that all the elements of the relationship between you and SMRC will remain unchanged.

Your previous contacts at Reydel will be there to look after you as before and are happy to answer your questions regarding the acquisition and renaming.

With kind regards,

Vivek Chaand Sehgal
Chairman,
Samvardhana Motherson Group

Benoit Rolland
Chief Executive Officer,
Reydel Automotive Group

Facts and figures

Samvardhana Motherson Group is one of the most diversified auto ancillary Groups headquartered in India with a global footprint, spanning 41 countries.

The Group is a leading global supplier of exterior rear-view mirrors for passenger cars. It is one of the leading suppliers of plastic modules to the European and Indian automotive industry. The Group also enjoys market leadership position for wiring harnesses for passenger cars in India, as well as a market leader in wiring harnesses for heavy duty commercial vehicles in the North American and European markets.

The Group provides full system solutions right from product design to prototyping, tool manufacturing, moulding and assembly to sequence in line supplies. The Group's automotive product portfolio comprises electrical distribution systems (wiring harnesses), automotive rear-view mirrors, moulded plastic parts and assemblies, injection moulding tools, moulded and extruded rubber components, modules and systems including cockpits /IPs, door trims, bumpers, lighting systems, air intake manifolds, pedal assemblies, HVAC systems, vehicle air conditioning systems, clutch for car AC compressors, roof hatches, cabins for off-highway vehicles, machined metal products, cutting tools, aluminium die casted products, sheet metal parts, thin film coating metals, IT services and wireless power. The Group has also invested in technologies that provide manufacturing support, including compressors, paint coating equipment, auxiliary equipment for injection moulding machines and automotive manufacturing engineering services.

The Group has over 250 facilities supported by design centres and support offices spread across 41 countries to provide timely and quality delivery its customers worldwide. SMG has manufacturing bases across six continents - Asia, Europe, North America, South America, Africa and Australia to support its customers across the world.
